

SAGAR KARKI

Pepsicola, Kathmandu / karkee5262@gmail.com / +977 9866636277 | GitHub

Profile Summary

Aspiring web and mobile app developer with a strong foundation in front-end and back-end technologies. Experienced in creating user-centric applications, integrating databases, and developing IoT-based systems. Passionate about solving real-world problems through technology and continuously enhancing coding and analytical skills.

Education

INTERNATIONAL INSTITUTION OF MANAGEMENT AND SCIENCE (IIMS) COLLEGE, KATHMANDU

Bachelor of Computer Science (Hons) | Affiliated with Taylor's University
2026

Graduated

Pentagon International College, Kathmandu

Higher Secondary (+2 Science)

Graduated 2021

Pashupati E.M Secondary School, Nepalgunj

Secondary Education Examination (S.E.E)

Graduated 2019

Key Projects

Capstone Project – Mobile App for Farmers & Buyers (Group Work)

- Designed React Native UI with smooth navigation and real-time form validation.
- Developed Node.js and MongoDB backend for user registration, product listing APIs, and secure data management.
- Facilitated direct communication between farmers and buyers, improving agricultural marketplace efficiency.

Web Application with CRUD Operation (Group Work)

- Built a PHP-based web application for managing user records with Create, Read, Update, Delete functionality.
- Implemented server-side validation, dynamic tables, and MySQL connectivity to store and manage user data.

Data Visualization – Revolutionizing Education in Nepal

- Collected and cleaned regional education data using Pandas, then visualized literacy trends and dropout rates using Matplotlib and Tableau.
- Created interactive dashboards that exposed literacy gaps and dropout rates across regions.
- Enabled data-backed decision-making for education initiatives.

Smart Home IoT-Based System

- Designed and deployed an Arduino-based system for automated lighting, temperature control, and home security.
- Integrated sensors and actuators with mobile remote control for energy efficiency and convenience.
- Reduced unnecessary energy usage with smart sensors and remote access.

Technical Skills

- Languages: JavaScript, PHP (Basics)
- Web Development: HTML, CSS, JavaScript
- Databases: MySQL, MongoDB
- Tools & Platforms: Git & GitHub, Jupyter Notebook, Tableau, VS Code, Wireshark
- Operating Systems: Windows, Linux
- IoT & Hardware: Arduino, Sensors & Actuators
- Version Control & Deployment: GitHub Actions

Languages

- English: Fluent
- Nepali: Fluent
